## We can also

- ✓ Arrange Phone and Mobile Data contracts
- ✓ Integrate on to most existing Android hardware
- ✓ Supply other rugged hardware solutions
- ✓ Upgrade warranty training and support
- ✓ Support all your company IT needs

## TRANZPORT

Air traffic control for trucks

Tranzport is the industries first mobile logistics management app. designed for multiple job types in the haulage industry. Available as both "Pay monthly" and recently launched zero start-up cost "Pay As You Go" options. Tranzport is for so much more than simply recording jobs carried out or collecting signatures. It allows a fully integrated workforce management system with extensive customisable features including:

- Automated vehicle checks
- Recording signatures and times for items delivered
- Remote receipt of job details
- Photographic proof collection
- Full web based back office system
- Optional Customer view
- Satellite navigation

The software is backed by a web portal which managers and head office workers can easily log into to assign or update jobs, view completed job details, as well as time sheets, mileage and delivery reports.

Available for all Android devices.

**Software prices start from as low as £7.50 per user a month! Contact us now to discover how this solution can save you time, money and integrate with the absolute minimum of disruption to your business.**
